

The various K-LOVE radio stations across the country serve me and my community by offering wholesome, clean and God-honoring music that I can listen in the car or at home.

If KLOVE were to be displaced by a LPFM broadcaster our community would lose an important source of radio music entertainment that is safe and uplifting for me and my children to listen to.

The service provided by KLOVE is in the public interest because it is clean, God-honoring music that parents of children (any ages) can allow their children to listen to without worry that they'll be exposed to words and ideas they are not yet ready to hear or wonder about.
